

Paul Dickman

Senior Policy Fellow with Argonne National Laboratory

Mr. Dickman is a Senior Policy Fellow with Argonne National Laboratory focusing on nuclear energy, safety, and national security policy. For over forty years Mr. Dickman has been involved in the forefront nuclear energy and national security programs in the U.S. and internationally. He has held senior managerial positions at the U.S. Nuclear Regulatory Commission and the Department of Energy's National Nuclear Security Administration. He is a member of the U.S. National Academy of Sciences, Engineering, and Medicine's Nuclear and Radiation Studies Board. He holds leadership positions in the American Nuclear Society, is the President Elect of the World Council on Isotopes, and a Fellow of the nuclear Waste Management Symposium. He serves as an International Special Advisor to NDF on the decommissioning and remediation of the Fukushima accident site.
